

# Safety & Hygiene Concept for COVID19

Algarve Watersport puts your safety and health first! Therefore let us show you how we are going to stay safe while taking part in our courses, enjoying the served meals and use the facilities of the house.

## We kindly ask our guests and team to take care of each other

- Wear masks in closed rooms
- Use gloves when working with food and beverages
  - Regular washing of hands
- Keep the minimum distance of 1.5m
  - No physical contact
- Paying attention to Corona like symptoms

## Providing Protective Equipment

- Masks are available for our guests
- Disinfectants are available when entering the camp and in common areas

## Rearranging and Cleaning of the House

- Our dorm rooms run in half capacity at a maximum of 4 beds per room. Exceptions with more beds and common bathrooms are only available for families and people living in 1 household
  - Bed linen is washed at 60°C with hygienic detergent
- The rooms remain empty as long as possible before they are reassigned to new guests
  - We disinfect surfaces several times a day
  - Every room has their own sun beds by the pool

## Food Measures

- We have extended our meal times so that as few guests as possible are in the dining area
  - Wearing a mask is obligatory in the inside dining area when not seated
    - Please keep your distance when waiting in line
  - Disinfect your hands before grabbing your cutlery and plates
    - Use your own spoon for serving yourself
  - Wait for your turn to be served when asked so by the kitchen team
    - Our team wears masks and gloves during preparation
- We rearranged our tables so you can stay safe and distant from each other

## Lessons

- We are checking the temperature of each student before the lesson
- Every Camp guest gets a numbered wetsuit during their stay with us, please wash and disinfect your wetsuit after each use and let it be stored with your instructor in the wetsuit shag
  - We have reduced the group sizes, fewer students per instructor:
- > Kiting: Students travelling alone may only take semi private lessons. Until you have a decent kite control we ask you to wear gloves during the lesson - we are further recommending private lessons for the first day
  - > Surfing: Maximum 5 students per instructor
    - The equipment is disinfected after every use
  - Each student keeps the same equipment during their course
- In the shuttles to the beaches, there is always a spare seat between the guests. Everyone wears a mask on the way

We will always be there for you with any questions or concerns.
